

BRIGHTON COLLECTION

The sheer beauty of the Brighton Collection cannot be overlooked! Much like time-treasured antiques, the Brighton Collection offers character through its rare beauty.

Brighton is a soft nylon sheared by hand, creating a patina effect that mimics a truly vintage rug that has been passed down for ages. This hand shearing technique provides distinctive variations in the pile, with some areas appearing more naturally 'worn' than others, while remaining plush underfoot.

The Brighton Collection features luxe fibers that catch the light and change before your eyes from every angle of the room. With a stunning range of colors from subtle neutrals to royal purples or deep blues, Brighton will impress the most discerning collector.
